

Observations & Clarifications

SOW (Draft v0.1) & SLA (Draft v0.1) — DailyCab Capital Raise & Launch Advisory

To: Project 8 Advisory, Mumbai | Attn: Mr. Anish Gaonkar, Managing Director

Date: 3 September 2026

Dear Mr. Gaonkar, thank you for sharing the SOW and SLA. Both documents are comprehensive and well-structured. I have the following observations and request clarity before we proceed:

- 1

Fee Structure & Quotation — SOW §11

The SOW references a separate Quotation for fees, payment schedule, and success fee terms — this was not included. Kindly share the complete Quotation to evaluate commercial terms including retainer, success fee %, and whether retainer is adjustable against the success fee.
- 2

Tail Period — Post-Termination Success Fee — SLA §11

The 12-month tail period appears extended for an early-stage engagement. I propose revising this to 6 months, applicable only to investors with whom active meetings were conducted — not merely target list names.
- 3

Existing Assets & Scope Adjustment — SOW §3 (A1–A6)

DailyCab has already built a live investor portal, financial model with simulation, DPR, brand identity, NDA framework, and a functional platform at **dailycab.in**. Since several Workstream A deliverables overlap, I would like to discuss a scope reduction and fee adjustment.
- 4

Alternative Fee Structure — Success-Aligned Model — SOW §11, SLA §8

As a bootstrapped, pre-revenue venture, I would like to explore a reduced/zero retainer model with a higher success fee — ensuring both parties' financial incentives are fully aligned with a successful outcome.
- 5

Jurisdiction & NDA Alignment — SLA §13

The SLA designates Mumbai for disputes; our NDA specifies Madhya Pradesh. I prefer **Indore** as a mutual compromise. Also, kindly share the specific NDA points you'd like to re-examine.

Looking forward to receiving the Quotation and your thoughts. Happy to discuss on a call at your convenience.
